

Glasgow JSEC Meeting Minutes  
4:00 pm January 10<sup>th</sup>, 2005  
Glasgow Job Service office

ATTENDENCE: Jason Mickilo, Larry Tade, Ken Jansa, Mona Amundson, and Lee Erickson

Treasures Report: It was discussed that we may have to cash the \$1000.00 CD that is coming due. It is anticipated that we will have some up front costs with the up coming state JSEC meeting in May. All agreed and we will locate the CD and get it ready for the maturity date.

Managers Report: Mona discussed the ESA (employment security account), which are set aside monies from the state UI taxes that employers pay. These funds are for the use to keep Job Services operating and funds in the past that the legislature tries to divert for other uses. Mona will keep an eye on the legislative issues as they arise. It is still early on in the session and it will take awhile to assess the new administration.

Mona has applied for a grant to the Northwest Area Foundation. It is a grant to upgrade some of the technology in both the Glasgow and Wolf Point Offices. Since the time of the meeting Mona has found out that we did not get the grant. She stated at the meeting that it was kind of a long shot anyway.

Mona will be RFPing for the Welfare WORC program. It is currently operated by the Valley County Commissioners. It serves most of its clients in the Wolf Point and Poplar areas and is based out of the Job Service office in Wolf Point. It has approximately 13 employees. She stated that the Commissioners will also RFP for the program. The RFP is to DPHHS

STATES JSEC Meeting: Ken Jansa stated that he will be working on items for the raffle. We discussed several items such as dinosaur related, T-Rex casts, Big Sky Airline tickets or a digital camera.
